Congratulations Providers!

*These rates were calculated using data from the NDIIS for children 13-15 years of age. This quarter's birthdate range (October 1, 1997 – September 30, 2000).

** There are 143 VFC enrolled providers whose rates are calculated on a quarterly basis.

† Goal of 80% for one dose Tdap and one dose meningococcal and 90% for two doses of varicella

†† HPV rate includes both males and females who have had 3 or more doses of HPV vaccine
